THE GAINES CASE.

The New York Day Book states that, in 1834, when Mrs. Gaines, (then Mrs. Whitney,) soon after her marriage, went to New Orleans with Mr. Whitney to take measures to obtain their rights, they applied to Edward Livingston for advice as to the best mode of proceeding and gave him \$500 for a written opinion on that point alone. He furnished them accordingly with a very deliberate, profound and elaborate opinion counseling them to adopt the proceeding by Bill in Chancery as ultimately the most complete and speedy, though at the onset and for a time apparently the most tedious and expensive.

With remarkable sagacity and foresight he foretold precisely every obstacle and every step of their progress, with an accuracy that has not been found to vary in a single particular in the course of a litigation of fourteen years—from the filing of the bill to the decree just announced by the Supreme Court of the United States, which crowns that unparalleled opinion with a success worthy of its wisdom.

MARRIAGE.—The "General Advertiser"

discusses on this wise in regard to marriage:

"We perceive that our Boston relative, Uncle Sam, and other papers of equal note, have been urging strong arguments in favor of marriage, of late. Now, we do not understand the policy of this course—but if it has anything to do with the next Presidency, we wish to know it, before we stand committed ourselves. If the institution of marriage is such a good thing, (and we shall be among the last to dispute it,) it certainly needs no puffing up on the part of the press to render it popular; and if it be not a desirable state, then by all that is humane let us not strive to entangle others into its meshes. Bachelor friends, tell you that matrimony is quite a pretty affair—altogether preferable, indeed, to single-blessedness; and we content to use the words of a cotemporary, that a man who 'owns a small wife, a big dog, two or three fat pigs, and two children ought to be satisfied.' But after all, to be very honest, the married life is not without its little vexations; for there is the 'washing day,' the 'baking day,' the day for taking up carpets, and—horror of horrors!—the grand Spring-cleaning time. In brief,
"Matrimony is like unto
Jeremiah's tigs;
The good are very good indeed,
The bad to sour the pigs."

We quote the preceding lines—which all will admit are beautiful and appropriate—from memory. There is certainly as much truth as poetry in them."

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. We hope that the fence between the Island Cemetery and the lot on which the Old Factory formerly stood, will be removed, and the latter laid out in a style corresponding with the former. Should the Company then purchase an adjoining lot, the Cemetery would be of very respectable size and answer the demands of Old Manly for many years. We presume some of the first improvements which the Company will desire to make in the grounds, will be to place a large quantity of ornamental trees in different parts of the place; but as the means of the Company are quite limited, we would suggest, as a matter of expediency and economy, to the stockholders, the propriety of each one's placing a few trees in the immediate neighborhood of his own lot. In this way, the whole ground might be appropriately decorated, and the expense, of a mere trifling nature to each owner, would not be felt by any one, and the improvement would add more than a hundred per cent. to the beauty of the Cemetery. In the Spring, if the ladies would plant a few rose-bushes in the yards, some mountain ivy and honeysuckles in the vaults or to the, and in this and similar modes display a little of their excellent taste, our Island Cemetery would indeed at once become

A garden of roses for loved ones to dwell in.

Death is busy in our community, and who may next be summoned from all the blanchishments and fascinations of life, to inhabit this death-white realm, no mortal tongue can predict; this week we are among the healthy and robust, and form a part of the long train that follows an old and respected citizen to the last resting place;—and the next week, the same sad procession is seen wending its quiet way to that still city, with all that is earthly of youth and beauty, who participated in the solemnities and ceremonies, the previous week.

If we are attached to our friends in life, and it affords us pleasure to make them happy here, in all the associations of a varied existence, why should we not take the same delight in rendering beautiful the last cold mansion? The grave is dark and dreary, we know,—but, by all that is sacred in the memory of the departed, let us not add desolation to that which is naturally so quiet and retired. Let us beautify the sepulchral bed, and though the cold winds may blow around it, and the bleak storms sweep above it, still we can rear a treasured curtain around our loved ones, by arbors of flowers; and the perfume that wafts over the place, will be as sweet as the odors of an Aromatic paradise, or the fragrant breathings of angels.

We are hardly aware of the contrast between roaming in such a place, and wandering through some obscure and neglected grave-yard, where the very dampness of death chills the system, and the rude barbarity of the scene beclouds the more delicate and sensitive faculties of our nature.—There is an enchantment about the former which has a mysterious power to captivate, and our leisure hours are passed there in lively communion with the spirit of a husband, wife, father, mother, brother, sister, child or friend; and although they are lost to us on earth, we are consoled by the reflection that they sleep amid scenes of beauty. It is hard to attempt to advocate that cold and staid doctrine, that it matters not much where our inanimate ashes are laid. The body, though mortal, is the habitation of an immortal guest on earth, and through life, to a certain extent we identify that very body, and we weep when that same mass of dust is taken from it.—It is the smile of affection that beams on the face of a wife's pleasing face, the wisdom that emanates from her lips, and the silent but powerful expression that glances from her eyes, that strongly tends to endear us to each other. It may all be the result of spiritual electricity, soul acting with soul,—but these outward, visible, tangible agents, through which we expe-

rience these feelings, are more than common dust, and they receive, as they ought, their full portion of the heart's purest love.

But it is not for this alone that we plant the cypress, and ornament the mausoleum; it is not solely for this that we engrave the beautiful epitaph, and record the heart's fondest and noblest wishes upon the tombstone. We also have an abiding regard for the soul, and these are all but the written evidences of a silent Catholic faith,—the deep-buried, ever-cherished, sacred hope that all is well with our departed friends, in the unknown future whither their spirits have gone.

God made the body in perfection, but he afterwards cursed it; his Son came to redeem us, and he suffered an ignominious death, and was buried. Yet he arose again from the dead,—not his spirit, for the tomb could not hold that, but his identical body which was mingled, and in that purified, actual form, he ascended to the heaven of his Father, the home from which his Spirit came. After his resurrection, the soldiers and the women looked into the tomb, but the body was gone; Christ was seen on earth, after this, in the same human form, and recognized by his friends,—and in this material garb, those habiliments of our life, he arose to his Father. God's power can re-animate and quicken the lifeless dust, though scattered to earth's remotest boundaries; and he has told us in his sacred word, that the dead shall rise from their graves, and ascend to judgement.—Not our souls, let them never rest in the tomb, but these bodies are to be raised up from corruption and the unconscious sleep of ten thousand years, to be recognized by each other, even as Christ arose from the dead, and was known by his companions and followers.

Therefore, as we are again to inhabit this same body, not for a short series of years, as we have thus far done, but through all eternity,—should we not cautiously and reverently lay it to repose, in a place and amid scenes corresponding, in a measure, at least, with the comforts it enjoyed in life? Reason, the whisperings of conscience, and the infallible voice of God Almighty command us to do so.

We are gratified with the marked change in public sentiment in regard to burial grounds, in this community, within a very few years past, and we are anxious to cherish that feeling, and to see it go on increasing, and induce them to act unitedly and with energy in making our Cemetery what it ought to be. We trust that the suggestions which we have thrown out, relative to improvements and ornamental additions will meet with a favorable reception from every one, and that with the approaching Spring, shall not only come a new natural garb for the place, but that artificial taste will also as its offering to the shrines beneath which are sleeping the dear ones whom we have loved and hope to meet again.

Jackson of the Newport News, intimates that our paper does not reach him regularly. Our mail man says he never has failed but once in two years to deposit the "Morning News" in the Post Office for our Newport friend. Put that in your pipe and smoke it!—New London Morning News.

What a remarkable memory the "mail man" of the Morning News must have.—Has never failed but once in two years!—This is strange—very strange; when we consider the fact, that it will not be two years till the fourth of next May, since the first number of the Newport Daily News was issued; but notwithstanding it is young in years, it is "old of its age."

Friend Debbare, your "mail man's" head will bear rubbing a little, and perhaps this means would bring to his recollection one or two other instances in which he has failed to mail us a paper. Suppose you try him.

The Union Magazine.—This excellent Monthly, for February is on our desk.—The engravings are "Steps to Ruin," "Going to School," and a Fashion Plate for the month. The literary articles are from the pens of Street, Mrs. Elliot, Stames, Miss Gould, Mrs. Enbury, Park Benjamin, and other distinguished authors long known in our country's literature. We have frequently spoken in terms of high commendation of the "Union," and each number only increases our admiration of it. It is judiciously and ably edited by Mrs. Kirkland, and we wish it abundant success.

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

BEWARE OF SUGAR COATED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 69 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Albany, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. E. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 195, Tremont-st., Boston.

JONES' SOAP. Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan. Why, 'twill repulse the love of any man! Those freckles, too, you know they'd quickly fly if Jones' Soap you'd use; come once—do try—it costs but fifty cents, and I am told it's worth, ay, doubly worth, its weight in gold.

Persons who have had no faith in it, have been astonished at the wonderful effect of Jones'—that is, the genuine Jones' Soap—in whitening the skin. For sale by Dr. R. J. Taylor.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists.—We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.—The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st., N. Y. Sold also by Dr. R. R. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer. For sale by R. J. TAYLOR.

Caution.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Dr. Jones' Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomato, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bileous affections, Costiveness, loss

of appetite, &c. There has been no medicine sold that has given such general satisfaction. These cannot be the least doubt but this compound is the best alterative now in use. We have abundant proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

To enable mankind to die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Bileous Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a passiver of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 96 John-st., New York, proprietor. See advertisement in another column. m320

Miracle.
ON the 4th of August, in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white-headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:
"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)
There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES' ITALIAN CHEMICAL SOAP, in curing Pimples, Blotches, Salt Rheum, Scurfy, Erysipelas, Sore Heads, Old Sores, Beard and Barber's Itch, Chapped and Tender Flesh, Pockles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an infant's, and in fact every kind of eruption and disfigurement. Read these certificates:
[From the N. O. Sentinel, Oct. 1, 1814.]
One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.
James Eltham, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.
Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it, but always say that the name of T. JONES is on the wrapper. For sale in Newport by

The Good Things of the Season, FOR Parties, Holiday Presents, &c.
WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and as great a many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.
Western Apples from 41 1/2 to 52 1/2 per bbl; shell-barks 25 per bushel; peaches \$1 02 per bushel; chestnuts from four to five dollars per bushel; also one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 25 cts; preserved ginger 1 1/2 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the best quality; for the truth of this we wish every one to come and judge for themselves.
This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.
Fancy articles and toys of every description, in any quantity, such as silver purses, pocket books, cigar cases, pocket knives, chess, cards, razor straps, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, counts of all kinds, Cologne hair oil and pomatum, riggers, tobacco, and everything that is ever kept in a confectionary and variety store.

Phalon's Chemical Hair Invigorator.

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.
Naught with beauty can compare,
With soft, glossy locks of hair,
If not endowed with such by nature,
Use Phalon's Hair Invigorator.
The subscriber having devoted a considerable portion of his time, or twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a preparation, the virtues of which he challenges the world to excel.
The Chemical Hair Invigorator is composed of a number of vegetable ingredients of superior qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.
The Invigorator is an article in which a charming and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.
Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

The great and only Successful Remedy for the cure of Consumption,

IS Dr. E. W. Vandersmith's INDIAN COUGH BALM AND LUNG BALSAM.

—READ—

Discuse of the Lung and Throat cured.

White Plains, April 29, 1847.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had lunar cataplasms applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willard, whose lungs had been afflicted for two years past, was cured by Dr. Vandersmith's Medicine. He insisted upon my trying Dr. V. and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow fetid matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,

EDWARD C. THOMPSON.

Inflammation of the Lungs.

New York, June 19, 1847.

Dr. Vandersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing spells, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vandersmith's invaluable medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but what is justice, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,

JAMES B. HENDERSON.

No. 703 Washington street.

Consumption.

Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing tub, I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vandersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c., ROBERT WILLEY.

IF Rev. B. HARRARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic ever tried, and fully equal to any recommendation of them.—

I you do not find that any of these pills does more good than four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insupportable perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—

Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one-quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to drink or diet.

Hyer's Pills.

The American Improved Hygienic Vegetable Medicine.

—SAFE, CHEAP AND EFFECTIVE.—

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.

During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by recommendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessarily compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.
